

## Floor Safety Checklist

### Slip, Trip, and Fall Prevention

Review your current floor safety program and make sure you have the right practices, products, training, response and reporting steps in place to establish and maintain a safer workplace.

Question	Yes	No	N/A
<b>Do you have a slip, trip and fall prevention program in place?</b> Make sure you have a written program will to help cover training, response, assessment needs and more. Proactive planning and tracking of slip, trip and fall incidents creates a safer and more compliant workplace.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you have employee training and re-training plans in place?</b> In order to prevent slips, trips and falls, employees first need to understand what hazards are in the workplace and how to best respond to them.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you have a spill response plan in place?</b> Have a quick and effective process in place to resolve spills before they become a problem.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you have absorbent supplies on hand?</b> Be sure your facility has the proper absorbent and cleaning materials to effectively respond to spills and leaks of various sizes.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you use workplace signage and labels to warn against hazards?</b> Clear hazard identification is critical in helping to prevent slips, trips and falls.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Does your facility have a process in place to review incident type and location?</b> Learn from mistakes and determine how you can avoid a similar problem in the future with products, training and improved cleaning.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you use floor marking tape in your facility?</b> Floor marking tape helps to outline safe walking areas to help prevent tripping over obstacles and steer employees away from other storage and equipment areas.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Does your facility have a consistent floor marking color practice in place?</b> Using a consistent floor marking color approach is important so employees can understand and identify what each area is used for – whether it is walking, forklift traffic, storage, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you use proper floor marking materials to accommodate frequent slip locations?</b> In order to reduce incidents in problem areas, use mats, runners and slip-resistant flooring and other options.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Question	Yes	No	N/A
<b>Do the stairs in your facility have proper railings and slip-resistant materials?</b> Use the proper materials and railings on your stairs to help reduce slips, trips and falls in these high-risk areas.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Are emergency evacuation routes labeled?</b> Glow-in-the-dark labels and signs help employees safely exit the building in case of an emergency.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Does your facility have temporary hazard signs on hand?</b> Some hazards only pose a temporary threat. Make sure your facility has moveable signage to put in place and take down as needed.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you have a scaffolding and ladder inspection plan?</b> Help ensure safety on elevated equipment by keeping track of when inspections occur and who performed them.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Does your facility have a slip, trip and fall emergency response plan in place?</b> Every employee should know what's expected of them when an incident occurs. This should include assessing the situation, calling for emergency medical assistance and reporting the incident.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you have a consistent cleaning plan in place?</b> One of the most important steps to preventing an incident is cleaning. Keep your facility clean and dry, and give areas with unique hazards extra cleaning attention.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Does your workplace require slip-resistant footwear to maximize traction?</b> Depending on workplace conditions, employees might need to wear slip-resistant footwear to ensure safety.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Do you assess your workplace regularly to identify hazards, repair needs, housekeeping improvements and more?</b> Review the safety of your facility and what steps need to be taken to reduce and eliminate any slip, trip and fall hazards.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
