

# Inspection Tags

Eyewashes and fire extinguishers are a few of the safety items in your facility that need to be inspected on a frequent basis. These inspections need to be documented, and tags are often the best way to do so.

Inspect, maintain and test all portable fire extinguishers.

## 2 ANSI / ISEA Z358.1-2014

Activate plumbed eye/face wash units at least once weekly and inspect them annually. Additionally, activate plumbed showers at least once weekly and inspect them annually.

A green rectangular inspection tag with rounded corners and a circular hole at the top center. The text "EMERGENCY EYE WASH STATION INSPECTION" is printed in white bold letters. Below it, "INSPECT UNIT CAREFULLY BEFORE SIGNING" is also in white. A table with two columns labeled "DATE" and "BY" has ten rows for recording inspections. At the bottom, "DO NOT REMOVE THIS TAG" is printed in white.

DATE	BY	DATE	BY
