

LASER ENGRAVED VALVE TAGS

Order Emedco's New and Improved Laser Engraved Valve Tags Today!

Customize to be sure your valve tag information correctly represents your valve numbers, location and pipe function. Choose from brass, aluminum, or stainless steel.

Brass

Industrial standard brass will not bend or break – great for big projects

- Most popular stocked tag legends are 1-1/2" round tags ready for immediate shipment
- Custom options in multiple shapes and sizes

Aluminum

Lightweight tags perfect for outside environments or in freezers – does not become brittle at low temperatures

- Engraved tags allow for unique information as non-sequential numbers or different wording on each tag
- Stamped valve tags available in both natural and color filled with 1/4" letters above 1/2" numbers. Custom options in multiple shapes and sizes

Stainless Steel

Extremely durable, corrosion and rust-resistant steel tags are perfect for your harshest environments

- Available with natural finish or add color to improve readability
- Perfect for medical facilities, food processing and so much more

New Laser Engraved Valve Tags Save Time and Money

- More Competitive Pricing
- Faster Lead Times
- Available in brass, aluminum and stainless steel materials in multiple sizes and shapes
- Top Hole Included
- Additional Custom Capabilities

Same product, same material, same quality... Only Better!!!!

Don't forget that Emedco has a full offering of hooks, chains and other fasteners in order to hang your valve tags in your facility.
