

VALVE TAG SELECTION GUIDE

Choose the valve tag that fits your unique specifications

Brass, Aluminum, Stainless Steel, Plastic and more!

Brass

Industrial standard brass will not bend or break – great for big projects

- ▼ Most popular stocked tag legends are 1-1/2" round tags ready for immediate shipment
- ▼ Custom options in multiple shapes and sizes

Aluminum

Lightweight, perfect for outside environments or in freezers – does not become brittle at low temperatures

- ▼ Engraved tags allow for unique information as non-sequential numbers or different wording on each tag
- ▼ Stamped valve tags available in both natural and color filled with 1/4" letters above 1/2" numbers. Custom options in multiple shapes and sizes

Stainless Steel

Extremely durable, corrosion and rust-resistant stainless steel tags are perfect for your harshest environments

- ▼ Available with natural finish or add color to improve readability
- ▼ Perfect for medical facilities, food processing and so much more

Plastic

Ideal for color-coding valve markers with contrasting letters for quick identification

- ▼ Durable, stain-resistant multi-layered plastic in many color and size options
- ▼ Write your own valve information with permanent markers on blank valve tag option

	Brass	Aluminum	Stainless Steel	Plastic
Indoor/Outdoor Use	Both	Both	Both	Indoor
Chemical Resistance	Good	Average	Excellent	Average
