

## 5 PRODUCTS TO HELP YOU STAY ON YOUR FEET THIS WINTER

# Winter Preparedness

**Stay safe, compliant and well-equipped this season with Emedco's Winter Safety Products.** Make sure your facility is equipped with ice melt, safety cones, anti-slip tape and other winter preparedness products. Here are five questions to keep in mind when shopping for winter products:

### 1. Are you compliant with OSHA's Walking-Working Surfaces standard?

We can help you keep your facility compliant so employees feel safe getting to and from work. Not only will Emedco keep your facility equipped to ensure employees are safe in treacherous weather conditions, but your facility will also be compliant with OSHA's Walking-Working Surfaces standard (1910.22).

#SMLT1

Pallet of 50  
each 50 lb. bag  
#SMLT2

\*Ice Melt – Not Eligible for Free Freight

### 2. How do you make employees aware of icy and wet surfaces?

Identifying hazards for employees is crucial for their safety. When employees know where to look out for icy and wet surfaces, they will feel at ease and know when to be extra cautious.

#### Caution Icy Areas Safety Cone

#SCAC35

### 3. Will employees be safe walking up and down icy, wet stairs?

Employees must have traction while walking up and down stairs on the job. Keep them safe with anti-slip tape.

**Striped Waterproof  
Textured Tapes**

#WAT13

**Watch Your Step Floor  
Safety Decal**

#ASFM4

### 4. How will you increase awareness of falling ice hazards?

Awareness of hazards is important for employees to feel safe and secure in the workplace. Raise awareness with OSHA Signs.

**Caution Icy Surface  
Sign**

#43093

**Caution Parking Lot May  
Be Slippery Sign**

#44286

### 5. Are indoor and outdoor entrances and exits equipped with matting to keep employees from slipping on wet floors?

Keep indoor and outdoor entrances and exits equipped with matting to keep employees from slipping on wet floors.

**SuperScrape™ Exterior/  
Interior Scraper Mats**
